According to 91/155 EEC

Printing date 04.04.2007

Reviewed on 21.03.2007

**1 Identification of the substance/preparation and of the company/undertaking****Product details**Trade name **Eurolan TG 4**

Safety data sheet no.: 49PD10388/18

Application of the substance / the preparation Priming

**Manufacturer/Supplier:**

maxit France s.a.s

4 rue de Mulhouse

Boîte Postale 27

F-68180 Horbourg-Wihr

Tel.: ++33(0)3 89 20 10 80

FAX: ++33(0)3 89 20 10 92

**Information in case of emergency:**

maxit France s.a.s

Tel.: ++33(0)3 89 20 10 80

**2 Composition/information on ingredients****Chemical characterization****Description:** Aqueous artificial resin dispersion on the basis of polystyrene acrylate.**Dangerous components:**

|          |                          |                                                                                                         |        |
|----------|--------------------------|---------------------------------------------------------------------------------------------------------|--------|
| 124-68-5 | 2-amino-2-methylpropanol |  Xi; R 36/38-52/53 | 1 - 2% |
|----------|--------------------------|---------------------------------------------------------------------------------------------------------|--------|

**Additional information** For the wording of the listed risk phrases refer to section 16.**3 Hazards identification****Hazard description:** Not applicable.**Information concerning particular hazards for human and environment:**

The product does not have to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

**Classification system:**

The classification is according to the latest editions of the EU-lists, and extended by company and literature data.

**4 First aid measures****General information**

Immediately remove any clothing soiled by the product.

Remove the victim immediately from the danger area. If the patient is unwell consult a doctor and present this data sheet.

**After inhalation** Supply fresh air; consult doctor in case of complaints.**After skin contact**

Immediately wash with water and soap and rinse thoroughly.

Generally the product does not irritate the skin.

**After eye contact**

Rinse opened eye for several minutes under running water. Then consult doctor. Rinse liquid should be tempered (20-30°C).

**After swallowing**

Rinse out mouth with water. Do not induce vomiting. Seek medical attention and present this data sheet.

## 5 Fire fighting measures

### Suitable extinguishing agents

Use fire extinguishing methods suitable to surrounding conditions.

### Special hazards caused by the substance, its products of combustion or resulting gases:

When water is vaporized, generation of toxic gases can not be excluded, e.g.: Carbon monoxide (CO)

**Protective equipment:** Use methods suitable to surrounding conditions.

## 6 Accidental release measures

**Person-related safety precautions:** Wear protective clothing.

### Measures for environmental protection:

Do not allow product to reach sewage system or any water course.

### Measures for cleaning/collecting:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

**Additional information:** See Section 13 for disposal information.

## 7 Handling and storage

### Handling

**Information for safe handling:** No special measures required.

**Information about fire - and explosion protection:** No special measures required.

### Storage

#### Requirements to be met by storerooms and receptacles:

Store only in unopened original receptacles.

**Information about storage in one common storage facility:** Store away from foodstuffs.

#### Further information about storage conditions:

Protect from frost.

Protect from heat and direct sunlight.

Store in cool, dry conditions in well sealed receptacles.

**Recommended storage temperature:** 5-30°C.

## 8 Exposure controls and personal protection

**Additional information about design of technical facilities:** No further data; see item 7.

### Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

### Additional information:

The applicable TRGS 900 (MAK list) was used as the basis for the preparation and/or revision of this safety data sheet.

### Personal protective equipment:

#### General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

(Contd. of page 2)

Do not eat or drink while working.

Avoid contact with the eyes and skin.

Keep away from foodstuffs, beverages and feed.

**Respiratory protection:** Not necessary if room is well-ventilated.**Protection of hands:**

Protective gloves.

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

**Material of gloves**

Neoprene gloves

PVC gloves

Nitrile rubber, NBR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

**Penetration time of glove material**

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

**Eye protection:** Goggles recommended during refilling**Body protection:** Protective work clothing.**9 Physical and chemical properties:****General Information**

|                |             |
|----------------|-------------|
| <b>Form:</b>   | Fluid       |
| <b>Colour:</b> | Milky white |
| <b>Odour:</b>  | Mild        |

**Change in condition**

|                                     |                           |
|-------------------------------------|---------------------------|
| <b>Melting point/Melting range:</b> | 0°C (32°F) (DIN ISO 3016) |
| <b>Boiling point/Boiling range:</b> | 100°C (212°F) (DIN)       |

**Flash point:** Not applicable**Self-igniting:** Product is not selfigniting.**Danger of explosion:** Product does not present an explosion hazard.**Vapour pressure at 20°C (68°F):** 23 hPa (17 mm Hg) (DIN 51640)**Density at 20°C (68°F):** 1,05 g/cm<sup>3</sup> (DIN 51757)**Bulk density:** Not applicable.**Solubility in / Miscibility with Water:**

Fully miscible

**pH-value at 20°C (68°F):** 7,0 (DIN 19261)**Viscosity:**

|                   |                 |
|-------------------|-----------------|
| <b>dynamic:</b>   | Not determined. |
| <b>kinematic:</b> | Not determined. |

**Solvent separation test:** Not applicable.**Solvent content:**

|                          |        |
|--------------------------|--------|
| <b>Organic solvents:</b> | 1,3 %  |
| <b>Water:</b>            | 48,7 % |

Solids content: 50,0 %

Additional information: None.

**10 Stability and reactivity****Thermal decomposition / Conditions to be avoided:**

No decomposition if used according to specifications.

**Materials to be avoided:** Product coagulation occurs when acid substances are added**Dangerous reactions:** No dangerous reactions known**Dangerous decomposition products:** No dangerous decomposition products known.**11 Toxicological information****Acute toxicity:****LD/LC50 values relevant for classification:**

| Components | Type | Value                | Species |
|------------|------|----------------------|---------|
| Oral       | LD50 | >2000 mg/kg (rat)    |         |
| Dermal     | LD50 | >2000 mg/kg (rabbit) |         |
|            |      | >2000 mg/kg (rat)    |         |

**Primary irritant effect:****on the skin:** No irritant effect.**on the eye:** Causes eye disorders.**Sensitization:** No sensitizing effects known.**Additional toxicological information:**

The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version.

**12 Ecological information:****Information about elimination (persistence and degradability):****Other information:** The product is difficultly biodegradable.**Ecotoxicological effects:****Acquatic toxicity:****Type of test Effective concentration Method Assessment**

EC50/16h &gt;100 mg/l (Daphnia magna (großer Wasserfloh))

LC50/48h &gt;100 mg/l (Oncorhynchus mykiss (rainbow trout))

**Remark:** The product contains substances which causes severe clouding in water**General notes:**

Do not allow product to reach ground water, water course or sewage system.

**13 Disposal considerations****Product:****Recommendation**

After prior treatment product has to be landfilled adhering to the regulations pertaining to the disposal of particularly hazardous waste.

**European waste catalogue**

|          |                                                                                                           |
|----------|-----------------------------------------------------------------------------------------------------------|
| 08 01 19 | aqueous suspensions containing paint or varnish containing organic solvents or other dangerous substances |
|----------|-----------------------------------------------------------------------------------------------------------|

**Uncleaned packaging:****Recommendation:**

Empty contaminated packagings thoroughly. They may be recycled after thorough and proper cleaning.

**Recommended cleaning agent:** Water, if necessary together with cleansing agents.

**14 Transport information****Land transport ADR/RID and GGVS/GGVE (cross-border/domestic)**

ADR/RID-GGVS/E Class: -

**Maritime transport IMDG/GGVSea:**

IMDG/GGVSea Class: -

**Air transport ICAO-TI and IATA-DGR:**

ICAO/IATA Class: -

**Transport/Additional information:** Not dangerous according to the above specifications.

**15 Regulatory information****Labelling according to EU guidelines:**

The product is not subject to classification according to the calculation methods of the "General Classification Guideline for Preparations of the EU" as issued in the latest valid version. Observe the general safety regulations when handling chemicals.

**Special labelling of certain preparations:**

Safety data sheet available for professional user on request.

**16 Other information:**

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

**Relevant R-phrases**

36/38 Irritating to eyes and skin.

52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
